- **Additives**  
Wetting and Dispersing Additives  
Specialty Additives  
Flow and Leveling Additives  
Others
- **Coalescing Agent**
- **Emulsifier and SB Binders**
- **Epoxy curing agent & Diluents**
- **Range of Extenders**
- **Solvents and Other Specialty Chemicals**
- **WB and SB Rheological Modifiers**
- **Pigments**  
Inorganic Pigments  
Organic Pigments

## Specialty Cleaning

- **CIP chemicals**
- **Conveyor Chain Lubricant**
- **Open plant cleaning**
- **Sanitation**

## Machinery and Equipment

- **Food processing Machineries**

- Biscuit Production Line
- Chocolate production line
- Candy production line
- Noodle production line
- Chanachur production line
- Parata production line
- Potato chips production line
- Snacks production line
- Ice cream production line
- Automatic paper cup making machine
- Semi-Automatic ice cream cone making machine
- Full Automatic ice cream cone making machine

- **Beverage Machineries**

- Cup Jelly Filling Machine
- Automatic Bottle Juice Filling machine
- Full automatic bottle blowing machine
- Automatic bottle water filling Washing, Rinsing, Filling & Capping line
- Automatic 5 Gallon Bottle Washing, Rinsing, Filling & Capping Machine

- **Bakery Machineries**

- Cake production line
- Bread production line
- Cookies production line

- **Water purification system**

- High Solids Filtration
- Ultrafiltration
- Nanofiltration
- Reverse Osmosis (RO)

- **Cleaning Machineries**

- Foaming machine
- Fogging machine

**All kind of packaging, rapping and grinding machineries**

## Industrial Chemical

- **Poly Aluminium Chloride**
- **Unsaturated Poly Resins**
